Art Project

Presenting to McClatchy High School VAPA students

Teaching & Industry Background

- Twenty years of teaching experience
- Designing and delivering courses in:
 - Web & Graphic Design
 - Makerspace, Print Production and Prototyping
 - Fine Arts, Printmaking
 - Entrepreneurship
- Passionate about industry standards and student learning outcomes

Passion for CTE - Industry Partnerships

- **Marketing:** Presented at CKM & SES, Axis Vice President, Prism Art Space, teaching workshops in art and design.
- **Industry partnerships** with Capitol Creative Alliance, Design Week Sac, Creative Mornings, Verge Contemporary
- **Promoting** programs through web, social media, PR, print and community outreach.

Learning is Rigorous and Joyful

- **Transparent and approachable** in explaining goals, expectations, and opportunities through presentations, webpages, demonstrations, and handouts.
- **Learner-choice** and multiple ways for students to demonstrate mastery while enjoying learning.
- Assessments focus on **prototyping and iteration** in gaining technical skills while using critical thinking, creativity, and career preparation.

Supporting Student Growth & Equity

- **Inclusive learning style** modifies and/or adapts lessons for student success.
- Formative and summative assessments use **hands-on projects** connecting learning to real-world applications
- Foster gradual release of responsibility to **support student growth** using *"I do, we do, you do"* teaching practices.
- **Using AI as a tool** in brainstorming, collaboration, and critical thinking.
